NEO Mission: Authorize and oversee charter schools through consistent, ongoing and robust evaluation to achieve significant and measurable student growth.

NEO Vision: The vision of NEO is to be a leading Minnesota Authorizer of innovative, diverse, and effective charter schools.

Background. In 2009, Minnesota passed a new charter school law effectively holding charter school authorizers to higher standards in overseeing the charter school performance in the areas of student achievement, governance, operations, and finance. Due to the new charter school law, essentially all 52 prior authorizers which included districts, colleges/universities and large non-profit organizations, had to be reapproved by the state if they intended to continue to serve as an authorizer. In addition, the new law called for a new category of authorizers, ‘single purpose authorizers’, whose sole mission is chartering schools to achieve the primary purpose of improving all student pupil learning and all student achievement.

At that time, primarily due to capacity issues, many authorizers did not resubmit their application and some were denied. NEO was one of the first single-purpose authorizers approved and received approval to authorize 12 schools that transferred from authorizers that no longer continued. Beginning in 2012-2013, NEO authorized 12 operational chartered schools. NEO has grown since then and served as the authorizer of 30 schools in 2024-2025, one of which opened in school year 2025-26, three of which are currently projected to open 2026-2027, and one of which was not renewed and closed.

NEO is governed by a Board of Directors that makes the final decision to approve or reject charter school applications based upon the recommendations of the NEO Advisors (contracted experts) and the Executive Director. The Board of Directors also makes final decisions regarding charter renewals, terminations, and expansions, supervises the Executive Director, and carries out all duties of a nonprofit governing board.

As a volunteer body, the NEO Board is assisted by the NEO Advisors and the Executive Director who serves as the main charter school liaison. The Advisors, who are independent contractors, review and research applications, assist with the oversight of school performance and school board meetings, provide technical assistance, facilitate sharing of effective practices and resources, and conduct fact finding and complaint resolution in response to complaints. Advisors bring a depth of experience and expertise from the charter school community and elsewhere in academic, governance, operation and financial compliance and oversight.

As an authorizer, the three main ways that NEO works collaboratively with charter schools to improve all pupil learning and all student achievement are by starting high quality charter schools, supporting continuous improvement of operating charter schools, and supporting and facilitating the replication and expansion of high-quality schools and their practices. NEO 's goals, which align to improving the learning, achievement, and success of all students, are to authorize schools to improve the percent of students meeting and exceeding grade level standards and to improve the percent of students meeting and exceeding growth goals, as well as improve graduation rates.
